General Letter read Nº. 4 Longclº. & sallampˢ. not to be taken in the Cloth in general Complᵈ. of

A General Letter from the Hoñ. th ePresidᵗ. and Council of the 8 Inst. read, Advising that on viewing the Bales Nº. 4 of Longcloth & Sallampores Ordry lately sent them to shew what Cloth it was, They find they can't admit of such Cloth to be taken in at any rate, And therefore return those Bales to us Complaining That the last parcel of cloth by the Rama proves in general very bad, and the Ordinary Longcloth & Sallampores Extreamly So, As may be seen by Pieces of those sorts taken out of several Bales and return'd here to shew with how much reason they complain of the bad Quality of the Cloth as well as of the washing of it, Insomuch that they have Order'd the whole Cargo to be rewash'd: That we must lessen the Quantity of Blue Cloth Propos'd to be provided, to 10,000 Pˢ, Agreeable to the Demand from Europe; Assure the Merchants we will not take in a Nº. 4 at all; Warn the sorters to be more Carefull in that Business, and Conclude a Contract for the Salem, Ordinary & Blue Cloths with all Expedition.

Merchts examin'd to it

their Answer

The Merchants are now Call'd in, the Complaint of the Cloth Comunicated to them, And what might be the Causes of it, Particularly enquir'd into; And therein they Answer That the Salem Cloth brought in by them is of the same sort wᵗʰ. Andiappa's, bought at the same place, & at the same prizes his was, as will appear on the Opening & Comparing a few Bales of His with Theirs; That upon a Calculate of the Prizes of the several Numbers it will be found that their cloth does not exceed the Price given for Andiapa's after deducting the 2¼ ℔ Cᵗ. Customs Dustore; That Andiapa delivers in his Cloth Brown which after it is Measur'd he has nothing more to do with But They are oblig'd to deliver their's Wash'd & the Washing has this last Year cost them about 14 Madrass fanˢ: a Corge more than the Company allow them for it, That a great deal of the cloth has been Torn at the Washers and [...] stolen, large Quantitys return'd for being Ill Wash'd & the Rewashing has cost them above a Pagoda a Corge. That about f[or]ty Bales of the Salem Cloth [have] been sorted to Ordinary & Some Quite Turn'd out And That they are oblig'd to Advance Mony to the Washers who are in their Debt above 200 Pagodas which they shall never be able to Recover of them. For the Longcloth Ordinary They say they have found it very difficult to procure this sort of Cloth, That the Dutch at Porto Novo Pay Pagº. 38: 16 ℔ Corge for worse cloth; That they have deliver'd in only seventy four Bales of which 40 were taken out of the Salem cloth and thirty four are all that are made up out of the Quantity of 60 or 70 Bales they have brought in & the rest being turn'd out occasions a considerable Loss to them; And being told yᵗ. the Sallampores brought in latterly were particularly bad They can say little in excuse of it but that much the Greater part has been turn'd out and but little taken in to Nº. 2. They are Answer'd.

Reply'd to

That for this last Article of their Remonstrance as well as that of the Quantitys of the Salem cloth sorted to Ordinary. It was owing entirely to their own Deficiency in making the cloth so much worse than Muster, And that they have had all possible favour shewn them in the sortings; And to the same deficiency alone, and Carelessness of Their's, they must Impute also the Damage sustain'd in the Cloth Torn, & the Charge of rewashing that which was not well Cured before; And For the Cloth stolen the Polygar Stood engag'd to make that good to them when they make a regular Demand for it: That These are but Idle Pretences & will not bear in Excuse of their Engagements to the Company, wherein none of them are provided for, & therefore they must not expect they will be allow'd of any Validity therein. But take all care immediately to prevent any such further causes of Complaint.

— *MARCH 1734–35* —

The Entring into Contracts for the Salem Ordinary & Blue Cloths was then Propos'd to the Merchants, agreeable to the Prizes they consented to in Consultatn of the 4th Instant But they Argue their Fear of the late Complaints of the Quality & Curing of their cloths, and would so Evade the Performance of their late Proposals; To this, they are told That they had already all Agreed to those Proposals, and that we must expect they should perform accordingly: And After some Argument They do Agree, That in case they might be admitted to deliver in their cloth Brown as Andiapa does they would undertake to bring in as good [for a quarter of a] Pag[od]a less in Price Or If they might be assured they should be no loosers by the Contract they would use their utmost Endeavours to bring in the best cloth they can & of the higher Numbers, but without some such Assurances they dare not venture upon it, for fear such a Quantity of Goods may be return'd to their Hands as that the want of a ready sale for them might prove their ruin. they raise Objectns to ye. enterg into a New Contract

AGREED that the Merchts. Representation and our conference with them in consequence of the said Letter, be advis'd of to the Presidency, And That It be further wrote in Answer to it, These our Observations following: That on looking over the Pieces of Cloth return'd us for samples of the badness of sloop Rama's last Cargo We are sorry to see there is any so bad as some of the Pieces prove on the review, though we are of Opinion that some others of them are hardly any thing Inferior to our Musters, and can't think but that the Generality of the Cloth will prove much better than the Ps.sent for samples of the whole That the sorters Assure us they have always endeavour'd to sort Impartially between the Merchts & the Company though it may have happen'd and Particularly in the hurry for dispatching the ship George, that a few Pieces for want of more of the same Sort, may have been taken from a different sortment to compleat a Bale at the end of a Morning's Work, as well as by some mistake in the servants of the Warehouse, That the sallampores Particularly, have several years past been made up of a Courser thread than Muster, And there being no Muster of a No. 3, they may have been Something deceiv'd by a Continued heap of bad Cloth, Apprehending it to have been much the same as has been usually taken in to that Number, And If so They are sorry it should have happen'd, And promise to be more particularly carefull for the future For the bad Washing, Observations in Answer to the Complt. of the Cloth

That we are sorry to find it so much complain'd of and especially since some of the Pieces return'd for samples of it seem to us but little Defective That the Washing here cannot be so Clear as that at Madrass, for want of the clean sand near the Washing places which There, Assists the Whitening it, And our Cloth is spread on short Grass where the Dust Gathers under it and sullies, or prevents the Whitening; That our Beating Godowns are Unpav'd, and with single Gutter Tyles very dusty, But that they are now order'd to be Paved, Anew cover'd with slate Tyles, That many of the best washers had been oblig'd to leave the place for want of Employment, And as we could not Recover them just at the time we wanted them, We were glad to Accept any though Unskilled in that Business, rather than want Goods for the ship George's Dispatch, And we believe the cloth now complain'd of was a part of what Cured in that hurry, For we have no reason to think but that the cloth cur'd before That, was whitend as well as has been usual. do

General Letter read

A General Letter read, from the Hoñ the President & Council of the 19th. Inst Observing on the Merchts Excuses for the late parcel of Bad Cloth laid down in our Letter of the 15th: That though the prizes of our Merchts Salem Cloth are the same as Andiapa's, Yet they find Andiapa's to be better, More of it sorted to the higher Numbers & consequently cheaper: That the Polygar stands Accountable to them for the Cloth stolen, And That, For what is Torn, they have found many Pieces so in the Bales deliver'd to be rewash'd, and some even rotten, which easily Accounts for so much of it being torn in the Washing That their Complaint of the cloth return'd on their hands for bad Washing proceeds from their own Negligence in not seeing that the Washers cure it Perfectly: That for the Difficulties Started by the Merchants when they should have sign'd their Contracts; They are sorry to Observe themselves reduc'd to the Necessity of submitting to whatever their Merchants endeavour to Impose on them or else be told by them, That they will have no more to do with them; And that we should give them so much Countenance as to Report Such their Pretensions, without at the same time Representing in what manner we shew'd our Dislike of their Behaviour, And that the President & Council would not be treated in that manner. The said Letter also incloses Bill of Lading for the Muster Bale of Longclo. & Sallampores Ordinary No. 4 Return'd us as Unfit to be receiv'd.

remarking on Ours & the Merchts Answers to the Complaints of the Cloth.

Proceedings thereupon.

The Merchants are hereupon call'd in and acquainted that many Pieces of their Cloth lately sent up were found to be Torn & some rotten; For Answer They Declare that the Cloth when deliver'd the Washers was Sound, to the best of their Knowledge, and that the Damage must have happen'd the while it was in their Hands, For that they do Constantly Inspect the Cloth at the Washers, and all that they could Perceive Damaged or Torn, they put aside, & have now a considerable parcel of it by them: To This they are told, It is plain that they have not taken sufficient care in it And that, If they do not Oversee and examine it more strictly, the Company will not be the Sufferers but They themselves; And they Promise to take care accordingly, as far as possible.

Merchts still evade the entering into New Contracts.

The Merchants are now again desired to Enter on the Contracts Propos'd in Consultation of the 4th. Instant. But they still complain of their Losses in Curing the cloth so, that we find we cannot at present bring them to Comply, otherwise than on the terms they last Propos'd, to deliver it in Brown, and in that Case they say they hope to bring in more Cloth of the Higher Numbers And That though the Polygar should have paid for the cloth stolen Yet they say he still owes them above one hundred Pagodas on that Account and That the New Polygar Proves as Idle a Fellow as he we had before; Order'd therefore that care be taken to Stop out of his Fees after his People are Paid, Gradually so far as to Pay what due from Him on that Account And

Polygar's Fees to be Stopd. to pay his Debts &ca.

Particulars for Answer to the foresd. letter.

Agreed that this be wrote for a Part of the Answer to the said Letter, And further That we on our Parts Send as often as the distance of the Washing places and Scarcity of good servants will admitt, to have the Cloth overlook'd before 'tis Congee'd, and all Damaged Pieces turn'd out though we can't have it done so as to Prevent such Accidents entirely, For they will sometimes happen afterwards.

That it be further wrote in Answer, Our Concern to find we lie under his Hoñ. &cas. Displeasure, for Omitting to Acquaint them in what manner we had shew'd our Dislike of the Merchants Usage at the same time when we advis'd them what

ORDER'D that as many Topasses as become Supernumerary by this Recruit be Discharg'd.

Hovildar of Trevendaparum, disputes about that Water Gutter.

The Deputy Governour Acquaints the Board that Complaint has been made to him that Cotum Ramia the Hovildar of Trevendaparum had stop'd up the Branch running from that Water gutter to Cuddalore & turn'd the Water on one side to water the Grounds without our Bounds, by which means that part of our Bounds is deprivd of it's usual supply of Water, That hereupon he had sent twice to desire the Hovildar to Order that Dam to be Open'd but receiv'd No Satisfactory Answer till last Tuesday he said he had checkd his People & Promisd to Act according to Custom That Notwithstanding This, said Passage Continuing Shut He had sent some of our People who Opend it And next morning finding he had stopd it again, he sent Peons again to Open it, But the Hovildar's People Dam'd it up again as fast as our's could open it; And, to Prevent any Mischief he had Order'd our People back, & sent again to the Hovildar to acquaint him what had Pass'd contrary to his Promise the day before; That he had sent a Braminy to talk with him on that Matter, when he insisted on the Chanels being open'd, which the Braminy at last agreed to and got done accordingly though he said the People of Archipelocopang claimd the Use of that Water Course as what has been usual to them; That, to This he had offer'd that if the Hovildar would send for those People to make good their Pretensions he would send for several of our Oldest Inhabitants to discourse the Matter with them and prove whose right it was which the Braminy Agreed to, & Promisd to bring his People to examine it the next day, But instead of That, Word was brought him that the Chanel was again Stop'd up & that People were sent for from Waldore & other Places to help them to dispute it.

that Affair Examin'd into

Hereupon, Recourse being had to our Records, We find our Honble Masters have an Undoubted Right to this Water Chanel and 30 foot of Ground on each side by a Particular Agreement made with Syropsyng on the Conclusion of the Chingee Warr; And, Enquiry being made among the best of our Old Inhabitants who were able to give any light into this Matter, we find that no Intrusion of this Kind was ever before Attempted; That OUR Renters indeed have usually Allow'd two Pecotas for Drawing water to the Ocla Naigue on the Neighbouring Hills & the

Use of a little Water drawn by Baskets to Goa Suamy a Fuckeer who belong'd to said Syrop Syng, for a Paddy Field or two given by Charity by the People near Archipelocopang, which was all that hath been ever allow'd even by Our Renters who had no Right to Allow any; And that, what other water may have been drawn from our Gutter was done by Placing Pecotas & Baskets by stealth & when Unobservd by our People, And they carry'd them off as soon as they found they were taken notice of, Else their Picotes &c^{a}. were bro^{t}. in here & Burnt: We the rather incline to believe this Account Since so fair an Offer as the Hearing what their People can say as to their Customs, as well as Ours, have been Refused: Our Renters further Plead that all the Charges of keeping that Aquaduct in Repair are Defray'd by Them and amount to more than 200 Pagodas a Year: And Upon the Whole; As the Hovildars shuffling Behaviour gives us no Hopes to get this Greivance Amicably Accomodated.

AGREED that it be fully Represented to the Honble the President & Council for their leave to Oppose by Force their stopping up that Chanel any longer.

To the Worshl, James Hubbard Esq.
Deputy Governour &ca. Council

The Humble Petition of Sadashavarow
and Wologapa Chitty Arrack Farmers.

Sheweth

That Whereas your Worship &ca. Council about the month of August 1733 sent for your Petitioners desiring them to take the Arrack Rent, Your Petitioners then replyd that Poncala Kistna, the former Farmer Lost Considerably by that Farm And when Mr. Fowke was Deputy Governr. here Two Persons offer'd to take the Farm for 1000 Pago. ℔ Annum Upon which Mr. Fowke wanted them to give security, And as they Could Not, Afterwards the Farm Remaind in the Company's Hands About Two months during which time the Produce thereof Amounted to 138 Pago. At which rate it comes to but 828 Pago. ℔ Añum Your Petitioners then Inform'd Your Worshp &ca. that If they should Engage themselves in that Farm they must sustain a Great Loss thereby; Then your Worship &ca. told your Petitioners that as we were the Bound & Tobacco Farmrs. You would have Us be the Arrack Farmers likewise At which time the Grain was pretty Plenty, Upon which your Petitionrs. were willing to oblige Your Worshp &ca. & being also Desireous to Serve the Company took the said Rent for Two Years only, And Your Petitioners were then in Hopes that the Military would take their Allowances according to the Cowle thô they found since Not above Half the Military would Drink because they were scarcely Able to Maintain themselves & Familys in that time of Famine which Consequently made several Others to Drink the less, On which Account your Petitionrs. lost by this Farm in these two Years, seven hundred Pagodas; Which Your Petitioners submitt to your Worship &cas. Consideration That they are in Mean Circumstances And that their taking this Farm was more to Oblige your Worshp &ca. and serve the Company than any Expectation they had of Proffit by it to themselves And Your Petitioners as in Duty bound

Shall ever Pray.

Remarks on our state of M^{r}. Berriman's debt.

"That they find him chargd P 670. 24. 60. for Broadcloth delivd him by "the Wareh^{o}.keeper which should have been explaind whether it was so deliv^{d}. "by Ord^{r}. of Consult^{n}. do.

That the Particulars of the Disbursemts that make up the Article of "P 221. 17. 20 charged in his Acco^{t}., but not paid for, should be Enter'd at large. do.

That for the Pag^{o}. 546. 11. 50 found in M^{r}. Berriman's Desk, they think if "his Cashbook were produc'd it would very probably Appear to be a part of the "mony Advancd him for Cha^{s}. Garrison and that therefore it ought to be bro^{t}. "to the Company's Credit. do.

That the Advance of Seventeen hundred was no more than had been generally Usual; And, as he had in hand a General Repair of Fortifications, we thought Him a better Judge than we could be, of what Mony he should want for those or any other Disbursements.

For the Pag°. 670. 24. 60 of Broadcloth Deliverd, Our Wareh°.keeper does Acknowledge he had No Order of Consultation for it, Nor knew of None that had been usually Given and therefore did it as a thing of Course after having had the Deputy Govern^r's. leave to Indent for cloth for that Purpose; And that As the Purchase mony was always several Months a stopping from out the Military Pay, He could not be paid for it till sometime after the Cloth was deliver'd, Nor Consequently Make Entry of the Cloth As deliverd and sold till it should be paid for, As more Particularly set forth in his Answer Enter'd after this Consultation.

That For the Article Pag^s. 221. 17. 20 It was disburs'd on the Garden House and in repairing the soldiers barracks and other Outhouses at the Gardens as may be seen in his Account under the Heads of Fortifications & Repairs.

Berriman's Death, which Happend but a very few days after his Account, had in time of his sickness been read in Consultation by M^r. Croke. WORSHL. SR. & SRS.

In Complyance with a Paragraph in a Gen'l Letter of the 8th. Inst from the Hoñ Governour & Council of Fort St. George whereby they desire to know whether I had an Order of Consultation to deliver the Broadcloth to the late Paymaster Mr. Robert Berriman Decd: In Answer thereto, Your Worship &ca. know that I receiv'd No such Order, Neither I presume has it been Customary to have any such Order given, For I have trac'd back the Consultations for these 15 years last past & I find No Precedent at all for an Order of Consultatn to the Warehousekeeper for the Delivery of the Broadclo. to the Paymaster; Therefore I hope I am not Accountable for it: But before I Indented for the Broadclo. this Year I intimated to our Deputy Governr. that it was wanted for the Military; And Our General Letter of the 16th. of August Notifies that the Broadcloth was for that Purpose; I have still further to Urge, that the said Seven Bales of Broadcloth Amounting to Pago. 670. 24. 60 deliver'd the said Mr. Berriman in August last to Cloath the Military as Usual once in two years, is not Customary to be brought to Account till the mony is Receivd which is always Some months after the delivery of the Broadcloth And likewise of the Coats & Caps to the soldiers This is one Reason I have not as yet Enter'd that Account in our Books, besides /the Military being at this present time under stoppage for their Cloathing/ As it cannot be supposd that Mr. Berriman, were he Alive Could have paid the Money before he Receiv'd it so I humbly Conceive it Cannot be Imagind that I could bring the same to Account before it was paid me.

If all this I have laid before your Worship &ca. be not sufficient to Indemnifie me, should the Hoñ Company Not have the Preference (As usually they have had) to all other Creditors; then I have This further to Urge for myself That the said Broadcloth is still in being in the Decd Mr. Robert Berriman's Godowns Except a few Pieces deliverd the Taylors on Account of the Military Therefore I Presume it ought to be deliver'd up to me and Not be exposd to sale on Account of Mr. Berriman's Creditors, Most of them having been so Of many years standing Thus I fairly lay the Case before your Worshp &ca. And Am

A General Letter from the Honb the Presidt. and Council of the 27 Inst. Read being in reply to our Answer to their Remarks on our state of Mr. Berriman's Accot. with the Company wherein they own, That seventeen hundred Pagodas was the usual Advance to the Paymaster, And As the expence was like to be the larger by the General Repair of Buildings in Hand they can't see how we could well lessen the Advance. That they are glad to see the Garden house is finishd by the sum of Pago. 232. 9. 9 Paid in August to Compleat That Account, thô incerted in the July Account to put the charge of that Head to an end as soon as Possible, That If it had not been brot. to Accot. in July Mr. Berriman's Ballance would have been the Greater, And As it must have been chargd in the following Account it is the same thing to our Hoñ Masters though not altogether so regular as if it had not been chargd till, as at the time it was disbursd:—That As the soldiers have paid for their Cloathing it is just they should have them deliverd, That they allow of Mr. Crokes Defence, But Caution that we make Orders for whatever Wares & Stores are deliver'd for the future. That they are apt to believe the Pago. 191. 13. 50 found in Mr. Berriman's Desk is Mr. Brooke's Money but that we should Examine Mr. Berrimans servants further about it: And, That they have Appointed Mr. Robert Allen one of the Council of this place.

Agreeable to Order in Consultatn of the 29th. ult^{o}. We have taken out of the Godown the several Pieces of the Sweedish Broadcloth, & Perpets being 58 P^{s}. of the former sort and 12 P^{s}. of the latter which were all that lay Unpackd in a Corner of the Godown And having Opend & Examind them in the Sunshine & finding them very much Eaten & at the ends especially by a sort of Hairy Worm or Moth, We Opend also a Bale of the Fine Scarlet Cloth and found That also a little touchd at the ends with that sort of Insect which we take to have been bred in the Cloth, And therefore Doubt it is to be feard that Some of the other Bales may be Damaged in the same way; But we dont know how to clear them of this Sort of Vermin without Opening the Package of the Bales, and even the very Folds of the Cloth, Which being in the Europe Package We cannot make them up again as at first or without shewing a Repackage that may make them seem Immerchantable in the Country., So Desiring Your Worshp &c^{a}. Edward Croke Wareh^{o}.keeper delivers in an Account Particulars of the Deficiency in Measure of Paddy brought lately by several Vessels from Nagore for supply of Garrison Amount^{s}. to three Garce & 543 Mercals; And of a further Loss of one garce & 200 Mercals by the Overset of two Boat loads of it on the Barr, which he desires leave to write off. On this occasion the several measures of Madrass & this place are now (for a second time) try'd & Examin'd & a difference found of about one Mercal in fifteen that Our Mercal holds more than the other, which will in great part Occasion that deficiency without reckoning the Constant loss in Measuring and by Vermin and other Accidents. Report loss in Measure of Paddy for Garrison Store.

AGREED therefore that he be permitted to write off the Difference. And That towards Recovering the loss the Warehousekeeper represents that the Company must otherwise suffer by the Paddy bought by Andiapa at Nagore but Stop'd from Exportation there by a Chop from the Tanjore Government, so that it could not Come here till some time after the Northerly Monsoon, when Grain was considerably cheaper here, (As it appeard afterwards, as soon as we could get in the Accounts from Andiapa,) than what it Cost; We say towards recovering this loss and Considering that Those who have shared the Benefit of being cheaply supplyd by the Company in Dearer times, have the less reason to Complain of taking it at something more than the [then] Market Price when 'tis cheap Especially when there is No Compulsion but it is freely in their own choice to take or leave it; It is AGREED that he continue to deliver it out for sale this Month at four a half Measures ℔ fanam. to be wrote off. &ca. Council.

Worshl. Sir & Sirs.

Agreeable to Order in Consultatn of the 16th. Instant We have Opend and examind into the damage of all the Sweedish Bales of Broadcloth and Perpets, And find but a few Bales that seem entirely free from the Worm, and those Markd as by the Account herewith deliver'd, though there are some of them where the worm has but just Enter'd and several Others which are but just touch'd on the sides or Ends of a Ps. or two, which we have set down in the List as Damagd, And As we observ'd those Bales which were entirely cover'd with the Buckram Wrappers were Mostly free from the Worm, so we open'd only the ends of a few Pieces of each Bale As thinking the worm would soon find it's way into those pieces that were Open'd On the whole of what we saw in it, We believe it already May, or soon will be, All Infested with those Vermin; This we submit to your Worship &cas. Consideracon And are.

Worshpfl. Sir & Sirs,
Your Most Obedient Servants,
